## Bidding Project Information

<b>1. Project Name</b>
GWM DC charging pile bidding project
<b>2. Tender Contact</b>
Pimonwan, TEL:065-5022656, E-mail:Pimonwan@gwm.co.th
<b>3. Project Overview</b>
In order to build the G CHARGE system and provide fast and convenient charging service for customers , GWM initiates the DC fast charger bidding project.
<b>4. The Bidding Scope</b>
<p>1. This project is a bidding project for 60KW, 120KW and 160KW DC fast charger, including charger procurement, logistics, design, after-sales service, maintenance etc.</p> <p>2. The contract period is from contract signing date to 31st Dec, 2023 and the estimated number of 160kw is 12 units and 120kw DC charger is 120 units and 60kw DC charger is 60 units.</p> <p>3. Bidders should have after-sale service teams in Thailand.</p> <p>4. GWM will sign a framework cooperation agreement with the bidder to determine the product price. The investors of supercharging station and destination charging station and partner store charging station shall directly sign the purchase agreement with the bidder and make the payment.</p>
<b>5. Technical Requirements</b>
<p>1. The bidding products are DC fast charger 160kw with 2 guns and 120kw with 2 guns and 60kw with single guns. The standard is CCS2 and complied with IES and PEA and MEA requirements.</p> <p>2. The charger should support OCPP 1.6J and above communication standards. The bidder shall arrange the connection test between charger and the GWM charging management platform to ensure the compatibility between the charger and the charging platform.</p> <p>3. The charger supports multiple payment scenarios such as APP system payment, APP scan code payment, and card payment.</p> <p>4. The displaying contents of charger screen should be customized according to GWM's requirements.</p> <p>5. The charger supports checking the charger status (available, in use, maintenance etc.), appointment, payment, etc. through GWM APP. The bidder needs to provide a product warranty which is not less than 3 years.</p> <p>6. The bidder needs to send a video of the product introduction when bidding, so that the bidder can evaluate the product functions.</p> <p>7. The bidder should provide the testing chargers in Thailand for GWM vehicle test.</p> <p>Pls refer the technical task book.</p>
<b>6. Supplier Qualification Requirements</b>
1. There are service teams in core cities in Thailand to troubleshooting questions in time.
<b>7. Experience Requirements</b>
<p>1. Familiar with the charging pile market in Thailand, the products comply with IEC, PEA and MEA standards.</p> <p>2. The bidder needs to have a service team in Thailand to provide after-sales service and maintenance in the Thai market.</p>
<b>8. Due Date</b>
6-Apr-22
